Center for Regulatory Research, LLC releases a new product entitled "Risk Assessment Training for Imported Plant Products" on DVD format. The content of the training is based on previous courses given to USDA Foreign Agricultural Service Cochran Fellows. Scientists from industry and government will find this an excellent reference for methods and web sites. Libraries and educational institutions will want to include this DVD along with current supplementary materials for plant health/risk assessment courses. Training requires Adobe Acrobat Reader, a pc computer with a DVD drive and Windows XP, Vista or 7 operating system.

Contents of DVD:

Training Topics:

International Plant Protection Standards
USDA Guidelines for Risk Assessment
Pest and Pathway Risk Assessment Examples

Exercises:

Regulated Pest Lists
Import of Fruit and Vegetables
Quarantine Treatment Manual
USDA Commodity Import Regulations
Building a Pest List
Qualitative Pest Risk Assessment
Quantitative Risk Management
Pest-Host-Climate Interactions
Data Analysis with Microsoft EXCEL

Resources:

Glossary
Software for Collection and Analysis of Information
Databases Useful for Risk Assessment
List of Web Sites Containing Risk Assessment Information
List of Scientific Literature on Risk Assessment
